Autumn school 2017

PIKSEL KIDZ Lab :) **City PLANTS, City TECH and City WATER** **a new media art lab for kids!**

PRESS RELEASE

BERGEN

6th November – 17th November

13:00 – 17:00

For the first time in Bergen, the kids will enjoy the autumn playing with art and electronics. Piksel KidZ Lab is an artistic laboratory for kids to understand and build new media artworks.

From 6th of November, Piksel Studio 207 will host the Autumn School Piksel KidZ Lab. Three different workshops: Hello plants :), Water talking! and Sonorartec to explore the urban and natural environment. Kids build small electronic sound devices, marine bio-art sensors, and chips to communicate with the plants.

Under the themes City- PLANTS, City-WATER and City- TECH, kids engage with the environment in a wide sense: social, cultural and natural environment.

The use of free technologies empowers the kids to understand how computers works and introduces them into the digital freedom concept. The lab apply to collaborative production based on Do It With Others (DIWO) to promote cultural diversity and multilayer physical and virtual experiences to get ready for the XXI century!

Piksel KidZ Lab, aims to bring new media art practices to kids and youngsters. It is an initiative of Piksel, the Bergen festival focused on art and free technologies.
